

GREATER RAMSEY WATER DISTRICT
Automatic Meter Reading System
For Standard User

GRWD will install automatic meter reader on each members meter if the following conditions are met.

1. GRWD will determine if a radio reader or a telephone reader will be used.
2. If the member service location is not within the radio reading area, the member's service location must have a phone line near the meter assembly.
3. Meter pits are best read by radio and must be within the radio reading area or if a phone reader is used, the member must bury the proper phone line to the meter pit. The maximum distance a line can be buried and still have a phone reader work is 200 feet.
4. If no reader can be installed, the member must read the meter monthly.
